Mary Gwozdz mlg3646

Christopher Gang cg37877

Fall 2016

<p align="center">EE 422C Project3 Team Plan</p>

9/21/2016

Mary wrote the parse method while Christopher gave input. Mary started the BFS method and the oneLetterDiff method while Christopher gave input. Christopher finished the oneLetterDiffMethod, and continued working on the BFS method while Mary gave input.

We each worked for 30 minutes on our own laptops in the same room.

9/22/2016

Mary started working on the DFS method while Christopher gave input. Christopher completed the Node class and started working on the wordTree method while Mary gave input. Mary then finished the wordTree class, while getting input from Christopher.

We each worked for 45 minutes on our own laptops in the same room.

9/27/2016

Christopher finished writing the DFS method, and Mary began testing the DFS method while the other person gave input. Christopher worked for 30 minutes, and Mary worked for 15 minutes together in the PCL.

9/28/2016

We both worked individually on both BFS and DFS. We each spent approximately 2 hours working on the project.

9/30/2016

Christopher and Mary both worked on BFS and DFS together. Mary spent time working on BFS while Christopher gave input. Christopher spent time working on DFS while Mary gave input. BFS functionality was achieved whereas DFS functionality was not achieved. We worked together for approximately 2 hours in the same room on different laptops.
